

## Unconventional Quality. Enduring Value.

An Elevated Approach Built on  
Downside Protection

**Stephen Goddard, CFA**

Founder, Chairman, CIO, Co-Lead Portfolio Manager

**J. Brian Campbell, CFA**

Co-Lead Portfolio Manager

### About The London Company

- Employee-owned firm founded in 1994
- \$32B assets under advisement\*
- Singular process for all strategies
  - Driven by a fundamental quality-value approach
- We invest in our portfolios alongside our clients

### A Differentiated Investment Process

Our process focuses on protecting in down markets to deliver meaningful excess returns and lower levels of volatility over full market cycles.

- **High-Quality Companies:** sustainably high and improving returns on capital and strong balance sheets
- **Balance Sheet Optimization:** a novel approach to valuation that limits forecast risk inherent in growth projections
- **Focused Portfolio Construction** solves the problem of over-diversification: 25-35 high conviction stocks
- **Sell Discipline** seeks to avoid large losses to maximize return

## Disclosure Notes

The London Company's performances are size weighted and annualized based on calculations for the period ending March 31, 2025. The characteristics discussed herein relate to a representative account, and not every client's account will have these exact characteristics. As London manages its client portfolios according to each client's specific investment needs and circumstances, London cannot affirm that the characteristics of the account shown are similar to all accounts participating in the strategy. This is due in part to the timing of trades by the Advisor, market conditions, cash availability, and the timing of client deposits and withdrawals. Therefore, prospective clients should not assume that similar performance results to those shown would have been achieved for their accounts had they been invested in the strategy during the period. None of the information contained herein should be construed as an offer to buy or sell securities, or as investment recommendations.

**Definition of Firm:** The London Company of Virginia is a registered investment advisor. Registration does not imply a certain level of skill or training. More information about the advisor, including full descriptions of its investment strategies, fees and objectives, can be found in the firm's Form ADV Part 2, which is available upon request by calling 804.775.0317 or visiting [www.TLCAdvisory.com](http://www.TLCAdvisory.com). The London Company claims compliance with the Global Investment Performance Standards (GIPS®). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. Please visit [www.TLCAdvisory.com](http://www.TLCAdvisory.com) or contact us at 804.775.0317 to request a complete list and description of The London Company's composites and/or a GIPS® Report that adheres to the (GIPS®) standards.

**Composite Creation/Inception Date:** March 31, 2012

**Composite Definition:** The Mid Cap equity strategy invests mainly in conservative, low-beta, mid-cap equities with a focus on above-average downside protection. Primarily, we seek profitable, financially stable mid-cap companies that consistently generate free cash flow, high returns on unleveraged operating capital, trade at significant discounts to their intrinsic values, and are run by shareholder-oriented management. Positions are usually within the market capitalization range of the major, domestic mid-cap indices. Accounts in this product composite are fully discretionary taxable and tax-exempt portfolios with a minimum of \$100,000 in assets. This product is measured against the Russell Midcap Index and has a creation and inception date of March 31, 2012. There is no use of leverage, derivatives, or short positions. All actual fee-paying discretionary portfolios are included in one or more composites that have been managed for a full calendar quarter with limited restrictions and similar objectives. As of July 1, 2022 The London Company redefined the composites to exclude all dual contract relationships and any potentially bundled fee scenarios.

**Benchmark Description:** Primary: Russell Midcap Index measures the performance of the mid-cap segment of the U.S. equity universe. The Russell Midcap is a subset of the Russell 1000 Index. It includes approximately 800 of the smallest securities based on a combination of their market cap and current index membership. Secondary: Russell Midcap Value Index measures the performance of the mid-cap segment of the U.S. equity universe. It includes those Russell Midcap Index companies with lower price-to-book ratios and lower forecasted growth values. Benchmark returns are not covered by the report of independent verifiers.

**Performance and Fees:** Gross of fee returns are calculated gross of management and custodian fees and net of transaction costs. Net of fee returns are calculated net of a model fee of 0.75% and transaction cost and gross of custodian and other fees. The 0.75% model London Company management fee applied is the highest tier of the current composite fee schedule. This fee is applied monthly to the gross return at 1/12th the annual rate, which is 0.0625% per month. Actual investment advisory fees incurred by clients may vary. Returns may be net of miscellaneous fund expenses. The gross figures do not reflect the deduction of investment advisory fees. Returns are calculated and stated in U.S. dollars. Prior to April 1, 2024 returns are calculated gross of withholding taxes on foreign dividends and interest. Starting April 1, 2024, performance is calculated net of gross of foreign withholding taxes on dividends and interest income dependent on custodian data. Dividends are reinvested. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

**Past performance should not be taken as a guarantee of future results.** The report is for informational purposes only. Data, while obtained from sources we believe to be reliable, cannot be guaranteed and all statistics are subject to change. The statements contained herein are solely based upon the opinions of The London Company and the data available at the time of publication of this report, and there is no assurance that any predicted results will actually occur. Information was obtained from third-party sources, which we believe to be reliable but are not guaranteed as to their accuracy or completeness. This report contains no recommendations to buy or sell any specific securities and should not be considered investment advice of any kind. An investment in a London Company strategy is subject to risks, including the loss of principal. Referenced strategies may not be suitable for all investors. The appropriateness of a particular strategy will depend on individual circumstances and objectives. In making an investment decision, individuals should utilize other information sources and the advice of their investment advisor.
